Wadsworth, OH 44281

Dear Eli & Team:

Thank you for the professional guidance and direction in making the new tec4life.com a reality. While this project has been over a year-and-a-half in the works, it thrills me to no end that your patience and support have provided my business with a beautifully functional site that matches the level of quality and service Tec4Life clients now expect.

Your team shares this same value in providing the highest level of quality and service possible, and I greatly appreciated the comfort of being able to 'pop in' the downtown Wadsworth office whenever a question or concern arose that needed the clarity of personal attention.

The idea that you worked with the Tec4Life design files and programmed the site within an environment and language that is compatible with the latest in mobile devices is exciting and innovative. The impact that a matched experience will have when our clients and their family members access the site on any gadget is truly second to none.

I look forward to recommending your services to others, and utilizing your expertise in the near future without reservation.

Again, thank you.

Sincerely,

A handwritten signature in black ink that reads "Dave Harris".
